

COMPLETING THE APPLICATION FOR PURCHASE OF PRIOR SERVICE CREDIT

Purchasing prior service credit increases your total years of service and counts toward the five years needed to become vested, your eligibility for retirement and the retiree health insurance credit. You may purchase prior service credit if you have ever received a VRS refund and returned to covered employment, or if you have other types of service, such as public service, that you are eligible to purchase. You may purchase all or part of your eligible service as long as it does not overlap with other VRS service or qualify you for benefits under another retirement plan.

NOTE: If you apply for and are approved to purchase multiple service periods, you must purchase the most recent period first. For Plan 2 members, the cost to purchase the most recent period may be higher.

WHEN TO APPLY AND COST OF PURCHASE

You must apply for and pay for prior service credit while you are an active member.

VRS Plan 1 Members: If you begin your purchase of prior service credit within three years of becoming eligible, the cost is five percent of your salary at the time of your purchase (or five percent of your average final compensation, if higher than your current salary and you make a lump-sum payment). After three years, the cost is based on an actuarial equivalent rate in most cases. See "Types of Service" for more information.

VRS Plan 2 Members: If you begin your purchase of prior service credit within the first year of becoming eligible, the cost will be an amount equal to the approximate average cost of one year of VRS service credit. After one year, the cost will be at an actuarial equivalent rate in most cases. See "Types of Service" for more information.

VRS must receive your completed and certified application at least 90 days before your effective date of termination or retirement to allow adequate processing time.

HOW TO APPLY

1. Complete Part A of the application and enter your Social Security number at the top of each page. Be sure to select all type(s) of service you are requesting from your prior employer. If you request a purchase of service credit from more than one employer, complete separate applications for each.
2. If you are purchasing a type of service that requires certification, forward the application to the employer where the service was earned. Your employer will complete Part B. (For VRS refunded service or active duty military service, employer certification is not required; forward the application to VRS.)
3. Have the employer where the service was earned certify the prior service in Part B and forward the completed application to VRS at the address shown on the form. If you are purchasing federal or public service, have the employer forward the application to the retirement system in which you participated. The retirement system must complete Part C.

Note: Your application including your certification in Part A (and that of your former employer in Part B and the former retirement system or plan in which you participated, if required, in Part C) must be complete or it will be returned to you for the additional information.

NOTIFICATION OF ELIGIBILITY

VRS will review your application and notify you of your eligibility to purchase the requested service. If you are eligible, VRS will send you a cost letter. The cost letter explains the cost, the months of service you may purchase, and the payment methods available to you. If you do not formally arrange to purchase your service within 90 days of receiving the cost letter and a salary increase is reported to VRS, you must request an updated cost letter. Please allow approximately four weeks for your application to be processed.

Note: Do not send your payment to VRS until you receive the cost letter.

METHODS OF PAYMENT

You may choose to pay for prior service credit by pre-tax or post-tax payroll deduction, by lump-sum payment or a combination of these methods. Lump-sum payment options include a personal check, a rollover from a qualified plan, or a trustee-to-trustee transfer. Detailed information about each type of payment is available on the VRS Web site at www.varetire.org under "Purchase of Prior Service" and will be sent with your cost letter.

TYPES OF PRIOR SERVICE CREDIT YOU MAY PURCHASE

Note: Purchased service, in certain circumstances, may be counted toward eligibility for the hazardous duty supplement. The service must have been provided in a position defined by VRS as hazardous and it must be certified by your employer as eligible hazardous service. Active duty military service or hazardous duty service with an employer that does not participate in VRS, such as public service or federal service with another government agency, cannot be counted toward eligibility for the supplement. Learn more at www.varetire.org.

You may purchase up to 48 months of the following types of service or leave:

Active Duty Military Service – You may purchase this service credit if the service is not used in the calculation of an active duty retirement pension (except retirement from the Armed Forces Reserves or National Guard). A copy of Page 4 of your DD214 (Certificate of Release or Discharge from Active Duty) must be submitted with your purchase application for each active duty period. Please see the National Personnel Records Center's Website at www.archives.gov to obtain a copy of your DD214.

Leave of Absence for Births or Adoptions – You may purchase up to one year of approved leave of absence per occurrence, up to a maximum of four years, and you must have returned to work between occurrences. Both parents are eligible for this type of purchase.

Educational Leave of Absence – Your educational leave(s) must have been approved by your employer.

Non-Covered Service with a VRS-Participating Employer– If you were employed by a VRS-participating employer, but you were not eligible for VRS coverage at that time, you may purchase this service. Your service will be calculated as one month of service for each 173 hours as certified by your employer. Qualifying types of service include: part-time or wage service, probationary service, Job Partnership Training Act (JPTA) service, Comprehensive Employment Training Act (CETA) service, and grant-funded service with a VRS-participating employer. Your employer during this period of employment must certify your initial hire and termination dates, and the total number of hours you worked. The period(s) of service must fall within the employer's retirement coverage dates in VRS. During this time, your employer must not have contributed to an optional retirement plan or another retirement plan on your behalf; you may not receive a pension from any of the plans.

Public or Federal Service in Other Government Agencies – You can purchase this service if the service does not entitle you to a benefit with the employer's retirement system or any other public retirement benefit including benefits paid from a defined contribution plan. Public service is permanent, full-time, salaried service with another state agency, public school system, public institution of higher learning, or political subdivision in this or another state or territory of the United States. Federal service is permanent, full-time, salaried service with a federal agency. Service with a private employer is *not* eligible.

Other types of service you may purchase:

VRS Refunded Service – If you held a VRS-covered position and took a refund of the contributions in your account, your refund cancelled the service credit you had with VRS. If you are now employed by a VRS-participating employer, you can purchase up to the full amount of service represented by the refund. There is no limit on the amount of eligible refunded service you may purchase. The cost is five percent regardless of plan provisions under which you are covered. **Note:** You must arrange to purchase refunded service within the first three years of rejoining VRS or it must be purchased in a lump-sum payment.

Leave of Absence for Active Military Service (No-Cost) – You may receive credit at no cost for each occurrence of approved leave for active duty service in the U.S. Armed Forces if you were employed in a VRS-covered position at the time and you were not dishonorably discharged and returned to a VRS-participating employer within one year of discharge. If you withdrew your contributions and interest from VRS, you may receive this service at no cost after you have purchased the refunded period.

VSDP Work-Related Short-Term Disability Period – You may purchase up to six months of VSDP work-related short-term disability per occurrence if no creditable compensation is reported to VRS by your employer for that period. The cost for this service is five percent regardless of the plan provisions under which you are covered and you are eligible to purchase this service at any time prior to termination, retirement or the closing of the VSDP long-term disability claim. Plan 1 members may purchase periods that began on or after July 1, 2011; Plan 2 members may purchase periods that began on or after July 1, 2010. If you are on long-term disability at the time of the purchase, you may make a lump-sum payment only.

23. Social Security Number

PART C. FORMER RETIREMENT SYSTEM CERTIFICATION

The individual identified in Part A would like to establish credit for federal or public (out-of-state or in-state) service with the Virginia Retirement System. This service may include employment with a federal agency, state agency, school board or political subdivision in this or another state or territory of the United States. Virginia law does not permit the purchase of this credit if the individual is eligible to receive a benefit under another retirement system/plan as a result of such employment.

24. Does the service listed in Part B accurately reflect the service in your system? Yes No

If no, enter dates of service: From: _____ To: _____

25. Has this individual withdrawn all eligible contributions from your retirement system? Yes No

26. Certification (Choose the appropriate statement)

- On the basis of official records, I hereby certify the service listed in Part B of this application is **not** used in the calculation of any retirement benefit the applicant is receiving or is entitled to receive from this retirement system including those from a defined contribution plan with the exception of reserve or national guard pensions.
- On the basis of official records, I hereby certify the service listed in Part B of this application is used in the calculation of a retirement benefit the applicant is receiving or is entitled to receive from this retirement system including those from a defined contribution plan with the exception of reserve or national guard pensions.
