

## Optional Retirement Plan for Employees of Institutions of Higher Education

### Fidelity Plan Investment Option Performance

Below are the totals for the period ending January 31, 2010. Returns greater than one year are annualized.

Performance comparisons are outlined below. Current performance may be lower or higher than performance data shown. Performance data quoted represents past performance and is not a guarantee or prediction of future results. Investment return and principal value of an investment may be worth more or less than their original cost.

Investors should consider the investment objectives, risk, fees, and expenses carefully before investing. For this and other important information please obtain the investment company fund prospectuses. Read them carefully before investing. Contact your Fidelity representative for information about the Managed Income Portfolio.

Footnotes >

\* Performance figures since fund inception. Refer to the Fund Inception Date column.

<sup>1</sup> Fund investment advisers may voluntarily agree to limit expenses. Expense limitations may be terminated at anytime. Refer to mutual fund prospectuses for detailed information on fees. Contact your Fidelity representative about the Fidelity Managed Income Portfolio.

<sup>2</sup> Direct exchanges between the Fidelity Managed Income Portfolio and the Fidelity Retirement Government Money Market Portfolio or the Fidelity Freedom Income Fund (considered "competing funds") is not permitted. Before exchanging between these funds, you must first exchange to a "noncompeting" fund for 90 days.

<sup>3</sup> An investment in a money market fund is not insured or guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a money market fund.

<sup>4</sup> Regulatory rules now require mutual funds to display gross operating expenses (before fee waivers or expense reimbursements). The fund's investment adviser is waiving a portion of its management fees. The gross expense ratio (shown first) does not reflect the waiver; the net expense ratio (shown second) does reflect the waiver. Returns reflect the waiver, without which they would have been lower, and assume that all distributions are reinvested.

<sup>5</sup> Contact your Fidelity representative for custom composite benchmark information.

<sup>6</sup> Medium-sized companies may suffer more significant losses as well as realize more substantial growth than larger more established companies. Equity securities of companies with relatively small market capitalization may be more volatile than securities of larger, more established companies.

<sup>7</sup> Foreign investments involve special risks, including currency fluctuations and political developments.

<sup>8</sup> The expense ratio does not include wrap fees paid to third party wrap providers. Wrap fees are not separately stated, but do reduce the return of the fund.

<sup>9</sup> Effective April 1, 2009, the Fidelity Spartan Extended Market Index Fund's performance benchmark is the Dow Jones U.S. Completion Total Stock Market Index. Prior to April 1, 2009 the benchmark was known as the Dow Jones Wilshire 4500 Completion Index.

<sup>10</sup> Effective April 1, 2009, the Fidelity Real Estate Investment Portfolio's performance benchmark is the Dow Jones U.S. Select Real Estate Securities Index. Prior to April 1, 2009 the benchmark was known as the Dow Jones Wilshire Real Estate Securities Index.

<sup>11</sup> Effective October 27, 2009, the Fidelity High Income Fund's performance benchmark is the BofA Merrill Lynch U.S. High Yield Master II Constrained Index. Prior to October 27, 2009 the benchmark was known as the Merrill Lynch High Yield Master II Index (constrained).

**All performance returns shown reflect all fund management fees and other investment related expenses, but do not reflect plan administrative fees, if applicable. Obtain the company fund prospectus for information on short-term trading and other fees. Contact your Fidelity representative for information about plan administrative fees.** All calculations assume reinvestment of dividends and capital gains. All returns are calculated in U.S. dollars. Performance of an index is not illustrative of any particular investment and an investment cannot be made directly in an index. Fund performance returns provided by Fidelity. Benchmark returns provided by Fidelity, Russell/Mellon Analytical Services, and ING. Although data is gathered from sources to be reliable, the Virginia Retirement System cannot guarantee completeness or accuracy.
