

Plan 1: Political Subdivision Employees Eligible for Enhanced Hazardous Duty Coverage (VRS)

Average Final Compensation	Your average final compensation is the average of your 36 consecutive months of highest creditable compensation as a covered employee.
Service Benefit Calculation	<p>Your unreduced Basic Benefit is calculated using the following formula:</p> <ul style="list-style-type: none"> Average final compensation × Retirement multiplier × Total years of service credit at retirement <hr/> <p>Annual benefit amount</p> <p>÷ 12 months</p> <hr/> <p>Monthly benefit amount before taxes and other deductions</p> <p>A reduction factor is applied to your monthly benefit amount if you retire with a reduced retirement benefit (see below) or a benefit payout option other than the Basic Benefit.</p>
Cost-of-Living Adjustment (COLA)	A cost-of-living adjustment (COLA) allows your retirement benefit to keep pace with inflation. The COLA is based on the Consumer Price Index for all Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics and updated each July 1. During years of no inflation or deflation, the COLA will be 0%.
Death-in-Service Benefit	If you die while you are an active member (“in service”), your beneficiary or your spouse, minor child or parent may be eligible for a death-in-service benefit in addition to any life insurance benefits you may have.
Disability	If you are eligible to be considered for disability retirement and retire on disability, the retirement multiplier will be 1.7% on all service credit, regardless of when it was earned, purchased or granted.
Unreduced Service Retirement Eligibility	Age 60 if you have at least five years (60 months) of service credit, or at age 50 if you have at least 25 years of service credit.
Reduced Service Retirement Eligibility	Age 50 if you have at least five years (60 months) of service credit.
Hazardous Duty Supplement	If you retire with at least 20 years of eligible hazardous duty service credit, you will receive a supplement to your retirement benefit. The supplement is a dollar amount added to your monthly payment. It begins when you retire and ends when you reach your normal retirement age under Social Security. Once you are credited with at least 20 years of hazardous duty service credit while working in a hazardous duty position, you retain eligibility for the supplement if you move to a non-hazardous duty position. You can also defer retirement and still receive the supplement.

(continued on next page)

Hazardous Duty Supplement

(continued)

You are not eligible for the supplement if:

- You are at your normal Social Security retirement age or older when you retire.
- You retire on disability.
- You move to and retire from a position covered under the Virginia Law Officers' Retirement System (VaLORS) Plan 1 or Plan 2 and have a 2% retirement multiplier applied toward your hazardous duty service, even if you have earned 20 years of hazardous duty service.

Your beneficiaries and survivors are not eligible for the supplement.

Other service eligible for the hazardous duty supplement that can count toward your 20 years of eligible hazardous duty service credit includes:

- Service in another VRS-covered position eligible for enhanced hazardous duty coverage.
- Service as a state police officer.
- Hazardous duty service covered under VaLORS Plan 1 with the 1.7% retirement multiplier.
- Hazardous duty service if you were covered under VaLORS with the 2% retirement multiplier, provided you retire from a position eligible for the supplement.
- Hazardous duty service with a VRS-participating political subdivision that does not provide enhanced hazardous duty coverage, provided you retire from a position eligible for the supplement.
- Prior service credit for refunded VRS hazardous duty service or for an eligible period of leave while covered under SPORS, VaLORS or VRS in a hazardous duty position, provided you purchase or are granted this service.

Service not eligible for the supplement:

- Other types of prior service you may be eligible to purchase, such as active duty military service or hazardous duty service with a non-VRS participating employer, do not count toward eligibility for the hazardous duty supplement.

Mandatory Retirement Distribution

If you defer retirement and do not apply for retirement by April 1 following the calendar year in which you turn age 72, VRS will pay you a retirement benefit (Basic Benefit option), as required by law. If you are not vested, you will receive a refund of your member contribution account balance, excluding any member contributions made by your employer to your account after July 1, 2010, and the interest on these contributions.

Normal Service Retirement Age

Age 60.

Prior Service Credit

Eligible prior service includes federal and other public service, active duty military service, certain types of leave and VRS refunded service. If you have prior service, you may be eligible to purchase this service as credit in your plan. Prior service credit counts toward vesting, eligibility for retirement and eligibility for the health insurance credit, if offered by your employer. Visit myVRS.varetire.org to learn more.

Retirement Contributions

You contribute 5% of your creditable compensation each month to your member contribution account through a pre-tax salary reduction. Your contributions are tax-deferred until you withdraw them as part of your retirement benefit or as a refund.

Your employer makes a separate contribution to VRS for all covered employees. VRS invests contributions to provide for your future benefit payment. Members are not eligible for a refund of the separate employer contribution.

Service Retirement Multiplier

A retirement multiplier is a factor that determines how much of your average final compensation will be used to calculate your retirement benefit.

- If you are a sheriff or a regional jail superintendent, your retirement multiplier is 1.85% for service retirement.
- If you are a law enforcement officer, firefighter or emergency medical technician, your retirement multiplier is 1.7% or 1.85%, depending on your employer's election.

Contact your human resource office for more information about your multiplier. You are eligible to qualify for the hazardous duty supplement in retirement (see above).

Service Credit

Service credit has monetary value when it is used to calculate your retirement benefit or if you take a refund of your member contributions and interest. You earn service credit for each month you are reported in a covered position. Service credit can include credit for prior service you may purchase or additional service granted by your employer.

Vesting

You become vested when you have at least five years (60 months) of service credit. Vesting means you are eligible to qualify for service retirement if you meet the age and service requirements for your plan. You also must be vested to receive a full refund of your member contribution account balance (member contributions and interest accrued) if you leave employment and request a refund.
